THE STORY BEHIND THE ICONIC

Elevate Your Living Space with Our Revolutionary Suspended Bioethanol Fireplace

Experience Luxury and Innovation in Every Detail

Transform your home with our state-of-the-art suspended bioethanol fireplace, designed to offer unparalleled elegance and functionality. This isn't just a fireplace; it's a statement piece that redefines modern living.

Sleek Design Meets Cutting-Edge Technology

Our fireplace boasts a sophisticated design, seamlessly blending into any décor while providing a captivating focal point. Its suspended structure adds a touch of modernity, creating a floating effect that mesmerises and delights.

MORE ABOUT THE ICONIC

360-Degree Rotation for Perfect Ambiance

Imagine the freedom to direct warmth and light wherever you desire. Our innovative rotation device allows the fireplace to swivel a full 360 degrees, giving you complete control over the ambiance. Whether you're hosting a cosy gathering or enjoying a quiet evening, you can effortlessly adjust the direction to suit your needs.

Height Adjustability for Custom Comfort

Personalise your experience with our height-adjustable feature. Easily modify the fireplace's position to complement your seating arrangement, ensuring optimal warmth and visual pleasure. This adaptability makes it ideal for any room, from intimate lounges to expansive living areas.

Eco-Friendly and Efficient

Our bioethanol fireplace not only enhances your home's aesthetic but also supports sustainability. Bioethanol is a renewable energy source, producing clean flames without harmful emissions. Enjoy the beauty of a real fire with the peace of mind that comes from making an environmentally responsible choice.

Easy Installation and Maintenance

Designed with convenience in mind, our fireplace is straightforward to install and maintain. No need for complicated vents or chimneys—simply suspend, adjust, and enjoy. The easy-to-use system ensures that maintaining your fireplace is as effortless as its operation.

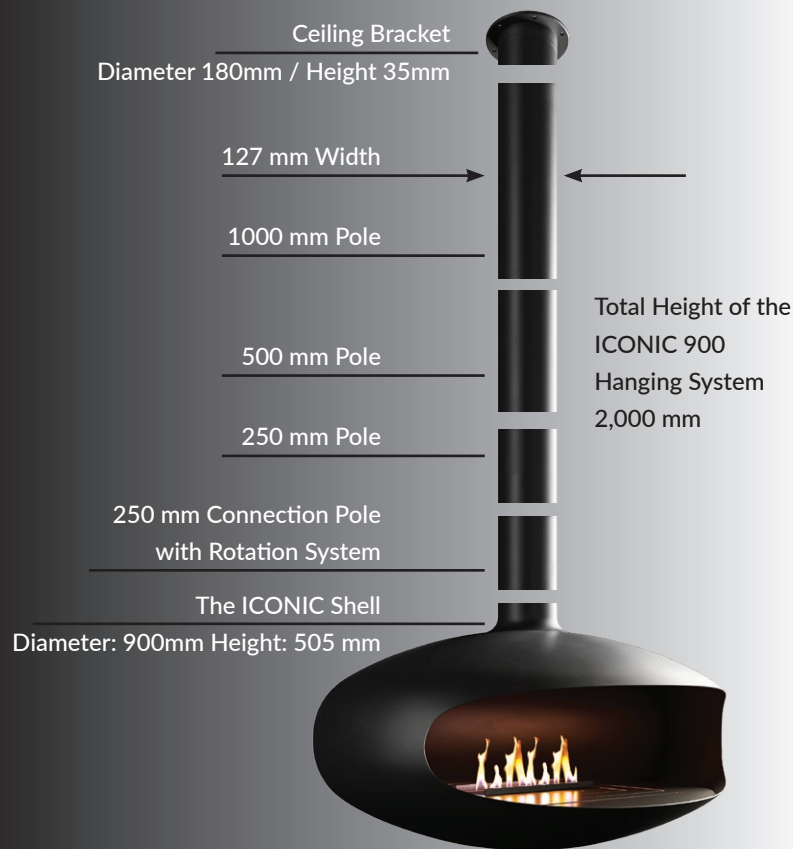

Safety First

Safety is our priority. Our fireplace is equipped with advanced safety features, including a secure suspension system and a stable rotation mechanism, ensuring it remains securely in place while you enjoy its warmth and charm.

The ICONIC 900 Full Model Height 2,542 mm

THE ICONIC

THE HANGING MODEL WITH ROTATION SYSTEM

Innovative 360-Degree Rotation Device for Your Fireplace

Our state-of-the-art rotation device offers the perfect blend of functionality and simplicity, allowing your suspended bioethanol fireplace to rotate a full 360 degrees. This innovative mechanism ensures you can effortlessly direct warmth and ambiance exactly where you want it, enhancing the comfort and aesthetic of your living space.

Our 360-degree rotation device with a simple tightening screw mechanism is a testament to thoughtful engineering and design. It provides the perfect balance of flexibility and stability, allowing you to enjoy the warmth and beauty of your bioethanol fireplace from any angle with ease. Experience the convenience and luxury of precise control over your living space's ambiance.

Benefits of the Rotation Device:

- **Effortless Adjustment:** Easily rotate the fireplace to direct heat and light exactly where you need it.
- **Secure Positioning:** Once the desired position is set, simply tighten the screw to lock the fireplace in place securely.
- **Smooth Operation:** The ball bearing mechanism ensures smooth, silent rotation for a seamless user experience.
- **Durable and Safe:** Built with high-quality materials and safety features to ensure longevity and peace of mind.

BENEFITS OF USING BIOETHANOL

Eco-Friendly Heating Solution:

- Bioethanol is biodegradable and non-toxic, reducing environmental impact.
- Burning bioethanol produces minimal carbon dioxide and water vapor, contributing to cleaner air.

No Chimney or Vent Required:

- Bioethanol fireplaces do not require a chimney, flue, or venting system, simplifying installation.
- This feature allows for greater flexibility in placement and design.

Cost-Effective:

- The high efficiency of bioethanol fireplaces reduces fuel consumption, saving money in the long run.
- Lower installation costs due to the absence of chimney or vent requirements.

Aesthetic Appeal:

- Bioethanol fireplaces offer real flames, providing a cosy and inviting atmosphere.
- The sleek and modern designs enhance the aesthetic value of any space.

Low Maintenance:

- With no smoke or ash produced, bioethanol fireplaces require minimal cleaning.
- Simple and straightforward maintenance ensures long-lasting performance.

Safe for Indoor Use:

- Produces no harmful fumes or pollutants, making it safe for indoor environments.
- The absence of a traditional chimney reduces the risk of carbon monoxide leaks.

Flexibility in Fuel Storage:

- Bioethanol can be stored in bulk, allowing for easy refuelling and consistent heating.
- The fuel can be kept safely in storage for long periods without degradation.

BURNER CAPACITY:

Net Model Weight: 13.8 kg

Burner Capacity: 6.5 litres

Burn time: up to 10 hours
