WOOD FIRES

why choose Regency?

An exceptional fire, custom elegance and controllable heat are just a few reasons to make a Regency fire part of your family.

In 1979, I founded Regency Fireplace Products with a mission to produce the finest fireplace products available anywhere. As a result, Regency has been honoured with awards for exceptional aesthetics and performance and is known as the premium brand around the world. We have been dedicated to providing Australia & New Zealand with Regency fires for over 20 years: committed to creating products that promote comfort and peace of mind.

I am so confident in the quality workmanship, the finest materials and durable heavy-duty construction invested in each and every product, that I offer a Limited 15 Year Warranty. Invite the comfort, efficiency and style of a Regency wood fire into your home and enjoy quality time - I guarantee it.

Alterra® wood fire

Above: Regency Alterra (F175) shown with optional stainless steel side panels

Wood burning tip #1

Burn dry, well-seasoned wood that has been split properly. Green wood is a major culprit in the creation of creosote.

Modern Styling - Traditional High Efficiency Heat

A wood burning stove with modern appeal! The contemporary design of Regency's Alterra wood stove puts the focus on the brilliant glowing fire. With an impressive viewing area, and a convenient firewood storage area, the Alterra is perfectly proportioned for visual pleasure and functional convenience.

Standard Features

- Heats approx. 190-240 sq.m*
- Large glass viewing area (461x260mm)
- Single rod draft control
- Firebrick liners and baffle lining
- Reversible door
- Strong bakelite handles
- 2-speed fan
- Airwash system
- Low emissions: 1.3g/kg

Optional Features

- Steel baffle
- Cast iron liners
- Side panels in black or stainless steel

burning wood - a green choice

Wood is affordable

Reduce your dependence on high priced, non-renewable home heating fuels by burning wood. Turn your fire down and enjoy comforting warmth in your main living area with a Regency wood product. Whether you buy your wood or collect it yourself, you will notice the savings within its first year.

Renewable Resource

Wood is a renewable natural resource - well-managed forests are a renewable, sustainable source of energy that helps us reduce greenhouse gas emissions and be less dependent on oil & gas.

Wood is Carbon Neutral

As trees grow they absorb carbon dioxide from the atmosphere. When trees die and are left to decompose in the forest or burn in forest fires the carbon stored in the trees is released in the atmosphere as carbon dioxide.

Burning firewood produces the same amount of carbon dioxide as it has absorbed during its life cycle - making wood burning carbon neutral.

Certified

All Regency Wood Stoves and Fireplaces have been tested and certified to the strictest Australian Clean Air Standards.
